YOUR LIFE

READY FOR THE FLIGHT OF YOUR LIFE?

ADVENTURE LEARNING AT ITS BEST!

**No Flying Experience Required
NOT a Simulation... You Fly!**

We are full-time aviation experts dedicated to providing the most authentic extreme aerial adventures available in the industry. Our pilots, aircraft and professional service are second-to-none... all instructors are **real fighter pilots** and certified aerobatic instructors with thousands of hours of operational flight time. Whether you're challenging yourself during our **Flight of Your Life Rides** or engaged in full-up **Air Combat Mission**, your safety and enjoyment combined with exceptional customer service are always the prime objectives. Your dedicated instructor flies you to the pinnacle of extreme aviation adventure, demonstrating precise aerobatic maneuvers, combat tactics or customized sequences requested by you, the customer. Run through loops, rolls, tail slides, snap rolls, tumbles, torque rolls, lomcevaks, extreme gyroscopic variations, hammerheads, inverted flight, advanced spins or anything else you've ever wanted to do in an aircraft. This will be a mission you won't soon forget!

You'll experience these thrilling adventures in the Extra 300L, a top-of-the-line two-seat world-class aerobatic competition aircraft... the most maneuverable commercial dogfighting machine anywhere! This aircraft is modified with a projected weapons display, laser gun sight, smoke generators and quadruple-view audio/video cameras to record your mission to show family and friends.

ARE YOU READY FOR THE "FLIGHT OF YOUR LIFE?!"

Flight of Your Life Rides

OVERVIEW

As our guest, you set the stage for your individual flight. You'll have the opportunity to keep it basic or witness first-hand air show maneuvers such as loops, barrel rolls, tail slides, snap rolls, stalls, hammerheads, inverted spins, lomcevaks, tumbles, the centrifuge or anything else you've ever wanted to do in an aircraft!

Fly with experienced fighter pilots – each with multiple tours of military flight duty and thousands of hours flying operational air combat both nationally and internationally. You'll have the chance to test the ability of the German-built Extra 300L, a world-class aerobatic competition aircraft. The Extra is used by top aerobatic and air show performers world-wide and is stressed to +/- 10 G's, has a roll rate of 360°/second, and a climb rate in excess of 3200 feet per minute making it one of the safest and most capable aircraft in the sky.

A multiple-view audio/video system, with switching capabilities, enables the pilot to capture you and your aerial experience on a keepsake video you'll treasure for a lifetime.

This will be a ride you won't soon forget!
